A suite of educational videos and journal activities for independent or synchronous learning

This series, recommended for grades 4–7, features works of art that invite reflection on common human experiences: courage, loneliness, hope, resilience, self-expression, reflection, and concern for others.

Hosted by the Blanton's director of education, Ray Williams, each lesson is designed to help build social and emotional competencies related to: self-awareness, self-management, responsible decision-making, social awareness, and relationship skills. Students will also develop their visual literacy and writing skills as they consider the various works of art and their connections to life.

STUDENTS WORKING INDEPENDENTLY

Step 1 — Watch Video
Ask your students to watch one five-minute video focused on a work of art from the Blanton. Students are invited to look closely and consider what the art has to say about the related theme.

Step 2 — Complete Journal Activity
Journal prompts accompany each video. Journal pages may be printed out, or the questions and activities may be completed in the student's own notebook.

Journal pages are numbered and designed to be printed, folded, and combined into a booklet. We recommend assembling the journal pages into a cartonera, a homemade personalized book with a decorated cardboard cover.

These videos provide instructions in Spanish and English to make your own cartonera (adult supervision required):

SYNCHRONOUS CLASS DISCUSSION

Teachers should preview each video and the accompanying journal prompts before presenting for class discussion. The preview will provide an opportunity to anticipate student responses, link ideas to other points in the curriculum, and generate questions for discussion. Below you will find sample questions for each theme that complement the journal prompts; class discussion may be a helpful warm-up for the written assignments.

Session 1: Trying Something New

- What do you do when you are bored? What new things could you try to do?
- What does it feel like to be a beginner? What are the risks? The pleasures?
- What skill have you been improving over time?
