Peat Duggins, *Black Room: South*, 2008

Tapestry, 86 x 51 15/16 in., Blanton Museum of Art, The University of Texas at Austin, Gift of Jeanne and Michael Klein, 2009

- What is your favorite part of the tapestry? Why?

STEAM LEARNING SERIES

ART & NATURE

THINK LIKE A SCIENTIST

ecosystem: a geographic area where plants, animals, and other organisms, as well as weather and landscapes, work together to form a bubble of life (from [National Geographic](#))

- What do you see in the ecosystem in the picture? What organisms do you see?

- What relationships do you see between these organisms?

- Are there any indications of weather or landscapes? Where? What does it look like?

- Does the ecosystem in this tapestry seem naturalistic, or does it seem to represent an imagined world? Use what you see in the tapestry to support your answer.
